-------------------------	---	---------------------	--------------------	-----------------

The web is a primary environment for provision of information related to DWD programs and staff communication. DWD's webpages are often the first point of contact for customers seeking information and explanation of the agency's programs and policies. Notices to customers are frequently posted on DWD's website only; however some may be made available in other formats.

This content is frequently updated and is often presented as FAQ pages, fact sheets, and notices. These materials are intended to convey and simplify DWD policies for customers and staff; they do not take the place of the official policy documents.

-------	-----------	-----------	-------------	-----

Supplemental information is also maintained on participants such as employment history, assessments, credentials and case notes, the specific grants provided under WIOA funding for the education and training services provided to participants and exit follow-up information.

Case records are tracked within the ASSET reporting system. Workforce Development Board staff and local service providers are required to enter participant information into the reporting system at the conclusion or exit from receiving an identified service.

Resumes reside strictly on Job Center of Wisconsin and are controlled by applicant; they are not part of ASSET.

WIOA Policy Update 07-05 dated May 24, 2007 establishes the requirement that all program participant files must be maintained for seven consecutive years after the participant exits from US DOL funded programs.

00081000.	CIVIL RIGHTS DISCRIMINATION CASES AND CIVIL RIGHTS INFORMATION SY	EVT+6	DEST	Y
------------------	--	--------------	-------------	----------

Civil Rights Discrimination Cases are complaints of housing, public accommodation, employment, family and medical leave law (Wis. Stat. §106.50, §106.52, §§111.31-111.395, and §103.10) and other areas of concern (Civil Rights case paper records that don't go to court (whether or not they have gone to a hearing)). Complaint cases travel through various stages in the Civil Rights Claim Process, including Investigation, Administrative Hearing, the Labor and Industry Review Commission (LIRC) Appeals and Circuit Court Appeals. Data collected from Civil Rights Discrimination Complaint is entered into CRIS (Civil Rights Information System). The CRIS application provides case entry, major event, statistical information, and case searching features. In addition to tracking claims from intake to final resolution, CRIS provides reports to staff and management, generates letters, and creates a subset of data to be sent to the federal Equal Opportunity Employment Commission (EEOC). The paper files and documents are destroyed confidentially after they are imaged and attached to the electronic CRIS case file.

CRIS is a client-server application, developed in PowerBuilder, using an Oracle database. Personally identifiable information is collected (e.g. date of birth, address, or medical information). A routine purge (destroy confidential) cycle process is followed between ERD and DWD's Bureau of Information Technology Management (BITS). EEOC data is extracted from CRIS and provided to, EEOC (Equal Employment Opportunity Commission), through the federally developed and maintained IMS (Integrated Mission System).

00081B00. **CIVIL RIGHTS DISCRIMINATION CASES - HEARING RECORDINGS** **EVT+6** **SHSW** **Y**

Electronic files of digital audio recordings of Civil Rights Hearings held on discrimination cases of employment, housing, public accommodation, and family and medical leave law (Wis. Stat. §106.50, §106.52, §§111.31-111.395, and §103.10) and other areas of concern. Complaint cases travel through various stages in the Civil Rights Claim Process, possibly up to and/or through the Labor and Industry Review Commission.

Each electronic file identifies the hearing, procedure for hearing, complaint process, and includes the actual hearing conducted by an Administrative Law Judge, including testimony of witnesses and identifying exhibits.

Hearings are recorded on a digital recorder and transferred to the Equal Rights Local Area Network (LAN) drive, which is the official record, and linked to the electronic case file via the CRIS application. The audio files are transferred with the imaged documents after the case is closed.

00109C00. LABOR STANDARDS INFORMATION SYSTEM (LSIS) TAX FILES AND RELATE EVT+7 DEST Y

Tax files generated from Labor Standards Cases for which ERD has collected, deposited and paid out money through the Labor Standards Information System (LSIS) Account. These cases are tax files where ERD had to pay employees/former employees and deduct Federal Tax, Medicare, Social Security and State Tax from amount received. This tax money is sent to IRS and WI Dept. of Revenue, with spreadsheets showing tax dollar amounts, Social Security numbers, and the name and addresses of the employees/former employees that ERD collected from employers.

The records are small files containing case information, check information from DWD Finance (in case ERD needs to trace a check), and letters that serve as W-2's for the persons ERD paid taxes in for. If individuals get audited, ERD has their tax information from their payments from ERD. The paper tax files and documents are destroyed confidentially after they are imaged and attached to the LSIS case file.

The record series may contain:

- ? Payment information as to where ERD received the money
- ? Lien information, if ERD obtained a lien
- ? Accounting information regarding the LSIS account
- ? Tax deduction information sent to claimants ERD paid
- ? Tax letter/forms ERD sent to the IRS/WI Dept. of Revenue
- ? Spreadsheet with persons, Social Security numbers, amounts paid and deducted for taxes
- ? Employer Federal Employer Identification Number (FEIN) and State Tax Identification numbers
- ? Settlement information as given to ERD from WI Dept. of Justice
- ? Court information, including bankruptcy, settlements

The Labor Standards Information System (LSIS) is an on-line, client-server case management application, using an Oracle database. The purpose of the application is to manage the different types of cases (e.g. wage complaints, Plant Closings, and Child Labor audits). It provides statistics for reporting purposes and features for Labor Standards Claims case entry (events/status and statistical information) and case searching. The LSIS Tax process tracks the payments received from employers and what was paid out to employees for labor standard violations recorded in LSIS. This portion of the system interfaces with the STAR PeopleSoft FSCM system. Checks are generated from this system by DOA.

<u>00111B00.</u>	<u>PREVAILING WAGE RATE SURVEY</u>	<u>EVT+2</u>	<u>DEST</u>	<u>Y</u>
-------------------------	---	---------------------	--------------------	-----------------

Annual initial and final Prevailing Wage Rate Survey results of wages and benefits paid to workers employed in the construction, highway, and related industries in each of Wisconsin's 72 counties. Surveys are sent to approximately 22,000 construction industry employers statewide from the Department of Workforce Development. Survey data received is processed and managed by the Equal Rights Division.

The series may include challenges, corrected/recalculated data requests/explanations and initial and final Prevailing Wage Rate Determinations.

The survey data is the basis for establishing the prevailing wage rates each year for public works projects and publicly funded private construction project. New rates for each county in Wisconsin go into effect January 1 of each year. (See Prevailing Wage Rate Determinations under RDA111).

The Prevailing Wage Application provides the following functionality:

A. Prevailing Wage: Two components – PWARS.exe and WAGES6.exe

Collects and processes annual Wage survey information to generate the Prevailing Wage rates for Public Construction Projects and publicly funded private construction projects. It also generates annual rates for Highway and Bridge projects which is sent to and used by the Wisconsin Department of Transportation in April each year.

The PWARS (Prevailing Wage Annual Rate Survey) functionality includes wage survey preparation and returns statistics and reports. WAGES6 (Wage Entry) functionality includes entry of survey data received from employers.

B. Prevailing Wage Project Determination: One component – PROJDET.exe

The Project Determination Issuance portion of the ProjDet.exe application has been moved to the new Prevailing Wage Project Determination (PWPDP) Online application.

The on-line application allows ERD staff to search for determinations, add events and comments to determinations, review reports, etc. which were out of scope for the PWPDP application.

However, the remaining portion of the application continues to be used by internal ERD staff.

Since the implementation of the new Project Determination Online application PROJDET.exe functionality is limited to internal ERD user inquiry and report generation functions.

C. The Prevailing Wage Lookup is a separate internet public access web site that allows employers and unions with the ability to view Prevailing Wage and Project Determination information by county, project, and trade or skill on-line.

D. Prevailing Wage Project Determination (PWPDP) On-line

The PWPDP external facing web application allows project owners of publicly funded private construction project to generate and print a project determination on the internet.

The Prevailing Wage Application is a client server application that uses Visual Basic 6 with an Oracle 10g database.

<u>00049E00.</u>	<u>UI QUARTERLY WAGE REPORT APPLICATION RECORDS - WAGE ONLY EMP</u>	<u>EVT</u>	<u>DEST</u>	<u>Y</u>
------------------	---	------------	-------------	----------

The Wage report application maintains a separate file that contains wages from an employer where the employer number is unknown or file contains reporting errors. These records are referred to as "Wage Only Employers".

The Wage Report Application creates a "dummy account" to record the wages in conjunction with the employee social security number. Once issue is resolved the office record is retained under RDA49D.

If a claimant files a UI Claim, their SSN is matched against the "wage only employer"/other files, so "total wages claimed" can be used for a Benefit Claim.

The New Hire mainframe access audit log was created to identify unauthorized use of information in the State Directory of New Hires. An entry is automatically made in the log each time a staff member accesses New Hire data using an on-line mainframe transaction.

The audit trail consists of:

- Alphanumeric user identification code assigned to the staff person logged on to the system.
- Name of the mainframe transaction used to access data
- Social security number or federal identification number used in the transaction
- Date and time the data was requested

Employers are required to submit electronic or paper reports on newly hired employees to a third party vendor used by multiple states, including Wisconsin. If employers submit paper reports to UI by mistake, the report is faxed to the vendor for processing.

The third party vendor transmits Wisconsin's New Hire Report information daily (except State non-work days) via a flat file to the Wisconsin Unemployment Insurance Division. Flat file data is imported into the State Directory of New Hires DB2 application. The Wisconsin Unemployment Insurance Division manages the State Directory of New Hires Application (reference RDA259B).

Federal regulations do not specify data retention requirements for the states.

Statistical reports required by the federal government. Reports and the source data are used by the Dept. of Workforce Development and Unemployment Insurance management.

Reports are produced electronically weekly, monthly, quarterly, and annually to provide information to the US Department of Labor (USDOL) on initial claims, continued claims, monetary and non-monetary determinations, and appeals for the management of the Unemployment Insurance program. These reports are submitted electronically to USDOL.

Year to date and other source files are used as the source documents to produce these reports.

Reports contain the following information:

- Special program trigger status
- Workload counts regarding Initial, continued, extended benefit and special program claims
- Time lapse counts for first payment and continued weeks timeliness
- Workload counts for adjudication and appeals
- Time lapse counts for adjudication and appeals
- Characteristics of the insured unemployed
- Claims and payment activities
- Overpayment detection and recovery activities
- Benefit rights and experience
- Interstate arrangement for combining employment/wages
- Non-monetary determination activities
- Alien claimant activity
- Worker profiling and reemployment services activity
- Worker profiling and reemployment outcomes

-------------------------	---	---------------------	--------------------	-----------------

The Unemployment insurance (UI) Benefit Claimant Record application system automates the day-to-day operations within the Bureau of Benefit Operations needed to administer and control the UI Tax laws for WI benefit accounts.

The major components of the system include: Benefit processing, that interfaces with UI Tax and Accounting; Appeals; Labor management Information; interstate benefits; child support; non-monetary and monetary determination processes; claimant file updates, report generation, and data sharing with other governmental programs.

The UI Benefits Claimant files and data include:

- portal data including authentication; time/date stamp and data entered
- inquiries
- overnight processes
- monetary determinations
- special programs
- check writing
- disputed claims
- appeals
- initial UI benefit claims
- weekly benefit claims
- overpayment, forfeiture, bankruptcy or delinquency activity
- interstate and combined wage claims

Software: The Benefit system is a mainframe-based transactional system which includes numerous batch and on-line jobs. The centralized mainframe and client/server environments utilize COBOL2, VSAM and IDMS data stores, CICS transactional processing, and DB2 and Oracle data stores.

-------------------------	---	--------------------	--------------------	-----------------

The Conditions of Employment (CoED) data is archived files containing estimates of labor market data needed to resolve benefit eligibility and is the primary source for UI to obtain Labor Market Information.

The basic structure of the COED system contains three modules: 1) Able & Available Issues; 2) Job Offer/Quit Issues; and 3) Mean Travel Distance.

Wage data is a main component of COED. The original source of this wage data comes from the annual federal OES Wage and Occupational Survey (OES). UI's source for this data, in a highly modified form, comes from the Labor Market, LMI ALMSHEMA, Oracle data store.

The CoED 2.0 application is an Excel Spreadsheet. Occupational titles are chosen from a DOL website (O*Netonline.org). Wage and hour data is entered onto the spreadsheet and CoED 2.0 creates a certified report. The report reflects the change from shifts to accustomed hours and provides a breakdown of the number of hours worked per week for similar work in the labor market.

------------------	---	--------------	-------------	----------

Treasury Offset Program (TOP) and Government Liaison Data Exchange Program (GLDEP) Extracts and 1099 data.

TOP is a Federal program that interfaces with UI SUITES to enable Federal Tax Intercept. TOP data is also copied into the CEDARS data warehouse.

TOP has considerable security restrictions for data, hardware, access and audit reports. Security actions allow UI to work with the IRS to intercept tax refunds for UI collectibles.

Output - The Notification of Intent to Intercept Federal (IRS) Income Tax Refund letters (one output from TOP).

GLDEP Extracts are IRS files received by UI that provide employer related information used as Tax and Benefit Collections and Employer Account Management Tools. Extracts include: BMF: Business Master File data; BRTF: Business Retention Transfer File data; Corporate Affiliation data; FEIN: Federal Employer Identification Number; Levy: Employer Bank Account data (Levy parties); Military Combat Zone data. GLDEP extract data exists in U:\Prod\UIData\IRS_FTI, in SUITES, and in paper for the Levy extract in very limited volume.

1099 data is stored and accessed via the proprietary 1099 Application.

<u>00465A00.</u>	<u>IRS FEDERAL TAX INFORMATION AUDIT LOGS</u>	<u>EVT+7</u>	<u>DEST</u>	<u>Y</u>
------------------	---	--------------	-------------	----------

Audit trail logging of IRS-supplied Federal Tax Information (FTI) is recorded every time FTI is created, a user accesses existing FTI, and when it is purged from the DWD network.

These logs contain a date/time stamp, the user who accessed the FTI, and details of what FTI was created/accessed/deleted. FTI occurs within the SUITES application, UI's 1099 application, the CEDARS data warehouse, and on one DWD shared network drive where FTI is stored.

IRS Federal Tax Information (FTI) has considerable security restrictions for data, IRS Publication hardware, access and audit reports.

Per IRS Publication 1075 (revision effective 9/30/16), FTI audit logs are required to be retained for 7 years. Records are now retained to meet the IRS requirement.

Dept #: 730/ Department Name: BWITS

RDA # RDA Title Retention Disposition PII

BLS Supplemental Reports hard copy (paper) reports are mailed quarterly to employers that meet "multiple worksite" criteria (e.g. employers with more than one worksite and which meet a minimum employment threshold). Employer completes and mails the report to DET. Cover letters are reviewed annually by state, regional office, and national office. Electronic files sent by BLS are imported in to the EXPO application.

00346D00. QCEW ANNUAL RE-FILING SURVEY (ARS) - PAPER AND ELECTRONIC CR+3 DEST N

ARS surveys employers to verify industry and geography and to obtain multiple worksite report information. BLS vendor prints cover letters. Sample of about 1/3 of the WI employer database each year, which is about 40-50,000 units surveyed annually. 00347C00. AUTOMATED CURRENT EMPLOYMENT STATISTICS (ACES) ACESWEB EVT+3 DEST N

ACESweb is a website maintained by the State of Iowa through an agreement with the Bureau of Labor Statistics. WI LMI staff use the ACESweb website to input, review and extract WI-specific data. This RDA applies to the following types of data stored electronically in ACES, which acts as an agent for DWD.

ACES contains four basic types of data:

1. Registry Data is information about the employer, including address, phone & fax numbers, physical location, type of business based on NAICS code, UI number and Employer Identification Number (EIN).
2. Micro Data varies according to type of survey completed by the employer, but may include number of employees, wages, hours and gross monthly earnings. Data elements collected may change periodically, but not more often than every six months.
3. Estimate Data, also called Macro Data, is the calculated total number (employment, wages, hours, etc.) based on the sample results.
4. Benchmark Data are the revised Macro Data based on verified employment numbers.

The registry data is no longer a responsibility of the state. Microdata is not available in a format that can be downloaded. Monthly estimates and benchmark data are maintained in ACESweb and available through WORKnet, Wisconsin's public facing website.

<u>00410000.</u>	<u>APPRENTICE APPLICATIONS AND CONTRACTS</u>	<u>EVT+60</u>	<u>DEST</u>	<u>Y</u>
------------------	--	---------------	-------------	----------

The application process is different for each type of apprenticeship; applications may include an aptitude test, an interview with the Committee, high school transcript, proof of graduation or equivalent, birth certificate, valid driver's license, and a recognized substance abuse test.

The categories of apprenticeship application and contract correspondence:

- Pending applications
- Active - assigned a sponsor
- Unassigned - contract suspended after unemployed 30+ days
- Completed

Contracts include apprentice and sponsor names and signatures, departmental approval, sponsor contact information, parent signature (if apprentice is a minor), apprentice date of birth and social security number, occupation, and term of apprenticeship.

Reports and mailings are generated from the Oracle database via both BASIS client application and Apprenticeship web applications.

Long Term Retention Justification: BAS views itself as providing a service for apprentices during their entire working career. An apprenticeship may begin when the individual is 16 and perhaps such an apprentice may work for 40 years. Since there is no practical way to know when an apprentice has died, retired or left the state, the simplest course of action is to retain these records for 60 years which can be reasonably assumed will span the career of program participants.

EVENT = Date apprentice contract is completed

<u>00410A00.</u>	<u>CANCELLED APPRENTICE APPLICATIONS</u>	<u>EVT+10</u>	<u>DEST</u>	<u>Y</u>

The application process is different for each type of apprenticeship. Applications may include an aptitude test, an interview with the Committee, high school transcript, proof of graduation or equivalent, birth certificate, valid driver's license, and a recognized substance abuse test.

This series covers applications that are cancelled.

This RDA is new because cancelled applications were formerly covered by RDA 410, and do not need to be retained for 60 years.

EVENT = Date the contract is cancelled

<u>00411000.</u>	<u>APPRENTICESHIP SPONSORS</u>	<u>EVT+10</u>	<u>DEST</u>	<u>Y</u>
------------------	--------------------------------	---------------	-------------	----------

A sponsor is any employer, organization of employees, association of employers, committee, or other person operating an apprenticeship program and in whose name the apprenticeship program is approved by the department.

This record series contains detailed information about employers including contact information, tax identification numbers, business details, any trade unions with employee members, and name and license numbers of any skilled workers and apprentices currently employed. It also includes the Affirmative Action Plan, compliance reviews, and Selection Procedures.

EVENT = Date the employer apprentice sponsor no longer participates as a sponsor

<u>00412000.</u>	<u>APPRENTICESHIP COMMITTEES</u>	<u>EVT+10</u>	<u>DEST</u>	<u>Y</u>
------------------	----------------------------------	---------------	-------------	----------

There are 15 active state trade and over 100 local apprentices committees. Committees are required to track affirmative action compliance within their respective trades. Affirmative Action compliance of committees is subject to further review by the BAS. Records in this series relate to the Committee's Affirmative Action compliance tracking.

EVENT = Date that a committee becomes inactive

00484000. APPRENTICE COMPLETION AWARD PROGRAM CR+10 DEST Y

The Bureau of Apprenticeship Standards is directed by law (2013 Act 57) to administer the Apprentice Completion Award Program (ACAP), which partially reimburses certain costs incurred during participation in a Wisconsin registered apprenticeship.

Records include:
Awards and Denials linked to apprentice contracts

EVENT = Creation

00485000. COMPLAINTS AND APPEALS EVT+6 DEST Y

The Bureau of Apprenticeship Standards (BAS) investigates complaints and appeals received by the apprenticeship community.

A complaint is a question or request for assistance to solve a program, or alleged problem, regarding any part of the apprenticeship program.

An appeal is a request made of the BAS for reconsideration of an action or a pending action. An appeal differs from a complaint by virtue of the fact the appeal causes the Bureau to review its actions, or pending actions, whereas a complaint results in the Bureau reviewing someone else's action(s).

An appeal may be the result of the Bureau's inability to resolve a complaint. Investigation and resolution files are maintained with contain comprehensive notes and relevant documents.

EVENT = Final resolution of complaint and any appeals

Material documenting the student's participation in the Youth Apprenticeship program. The series includes student registration, termination and change forms, competency checklist, skill standards checklist, classroom competencies, certification of occupational proficiency, Academic and Career Plan (ACP), Education and Training Agreement (DETW-9471).

Also tracked is school-related information such as grade, confirmed disability and associated Individualized Education Program (IEP) information, if the student is considered at risk, grade point average (GPA), estimated graduation date, high school name and district, participation in the High School Pupil Program including career cluster and reason student terminated participation (if applicable).

Employer data is also recorded in the student record including contact information, identification number, and mentor name.

Also includes program completion information and any certificate(s) issued.

The data is entered into YODA by Youth Apprenticeship Coordinators and Youth Apprenticeship staff members.

A 50-year retention is necessary for these records as they contain potential research material and documentation regarding program outcome from the beginning of the Youth Apprenticeship program in 1991.

------------------	---	---------------	-------------	----------

THE SELF-INSURERE'S COUNCIL IS A FIVE-MEMBER BODY APPOINTED BY TEH SECRETARY OF THE DEPARTMENT OF WORKFOCE DEVELOPMENT TO ASSIST AND ADVISE ON THE ADMINISTRATION OF THE SELF-INSURANCE PROGRAM.

THE 1913 WISCONSIN STATUTES CONTAINED A PROVISION THAT ALLOWED THE DEPARTMENT TO EXEMPT EMPLOYERS FROM THEIR DUTY TO PURCHASE WORKER'S COMPENSATION INSURANCE IF THE EMPLOYER COULD DEMONSTRATE THAT THEY HAD THE FINANCIAL ABILITY TO PAY ALL CLAIMS ARISING FROM INJURIES OCCURING IN THEIR WORKPLACE. THIS PROVISION CREATED THE SELF-INSURANCE PROGRAM; AND, SUBSEQUENTLY THE SELF-INSURERE'S COUNCIL. THE COUNCIL PLAYS AN INSTRUMENTAL ROLE IN ENSURING THAT THOSE EMPLOYERS APPLYING FOR SELF-INSURANCE ARE FINANCIALLY VIABLE. THE COUNCIL ALSO MONITORS, IN CONJUNCTION WITH THE DIVISION, THE FINANCIAL STATUS OF EMPLOYERS THAT ARE IN THE SELF-INSURANCE POOL.

WORKER'S COMPENSATION SELF-INSURERES COUNCIL (SI COUNCIL) WORKING PAPERS, MINUTES, ETC. THESE DOCUMENTS INCLUDE RECORDS OF COUNCIL MEETINGS AND STUDY GROUPS ESTABLISHED BY THE COUNCIL. 00217A00. **WORKER'S COMPENSATION UNINSURED EMPLOYER'S FUND APPLICATION** **EVT+50** **DEST** **Y**

WC DIVISION UNINSURED EMPLOYER'S FUND CLAIM APPLICATIONS AND REQUIRED DOCUMENTATION FILED BY AN INJURED WORKER MUST INCLUDE RELEVANT PAYROLL CHECKS, CHECK STUBS, BANK RECORDS, WAGE STATEMENTS, TAX RETRUNS OR OTHER SIMILAR DOCUMENTATION TO HELP DETERMINE WHETHER THEIR EMPLOYEE IS LIABLE FOR THE INJURY. A CLAIMANT IS ALSO REQUIRED TO DOCUMENT ANY MEDICAL TREATMENT, VOCATIONAL REHABILITATION SERVICES AND OTHER BILLS OR EXPENSES RELATED TO A CLAIM.

UEF CLAIM APPLICATIONS ARE ENTERED INTO THE UEF CLAIM PAYMENTS WEB APPLICATION.

THE UNINSURED EMPLOYERS FUND (UEF) PAYS WORKER'S COMPENSATION BENEFITS ON VALID CLAIMS FILED BY EMPLOYEES WHO ARE INJURED WHILE WORKING FOR ILLEGALLY UNINSURED WISCONSIN EMPLOYEE. WHEN A COMPENSABLE CLAIM IS FILED, THE UEF PAYS THE INJURED EMPLOYEE WORKER'S COMPENSATION BENEFITS AS IF THE UNINSURED EMPLOYER HAD BEEN INSURED.

UEF IS FUNDED THROUGH PENALTEIS ASSESSED AGAINST EMPLOYERS FOR ILLEGALLY OPERATING A BUSINESS WITHOUT WORKER'S COMPENSATION INSURANCE. THE PENALTIES ARE MANDATORY AND NON-NEGOTIABLE. IN ADDITION, THE DEPARTMENT PURSUES REIMBURSEMENT FROM EACH UNINSURED EMPLOYER OF BENEFIT PAYMENTS MADE BY THE UEF UNDER S. 102.81(1), WIS. STATS., TO THE EMPLOYEE OF THAT UNINSURED EMPLOYER OR TO THE EMPLOYEE'S DEPENDENTS. THE UEF USES AGGRESSIVE COLLECTION ACTION (INCLUDING WARRANTS, LEVIES, GARNISHMENT AND EXECUTION AGAINST PROPERTY) TO SECURE SATISFACTION OF PENALTY ASSESSMENTS AND REIMBURSEMENT OF CLAIMS PAID BY THE FUND.

THE UEF APPLIES ONLY TO INJURIES OCCURING ON OR AFTER JULY 1, 1996. UNINSURED EMPLOYERS FUND CLAIMS FILED FOR INJURIES OCCURING PRIOR TO JULY 1, 1996 ARE NOT VALID AND WILL BE DENIED.

00491000. WORKER'S COMPENSATION VOCATIONAL REHABILITATION SPECIALIST FILE EVT+6 DEST N

During review of this functional schedule, Worker's Compensation management identified these records as not fitting under another series or General Schedule.

Vocational Rehabilitation is a benefit under Chapter 102 of the Wisconsin Statutes and Wis. Admin. Code DWD 80.49 for certain workers injured on the job. These workers have the right to pursue services with a private rehabilitation specialist certified by the department (WC Division) if the Division of Vocational Rehabilitation cannot provide the necessary services.

An initial certification application can be submitted at any time; certification renewal applications are submitted every three years. Vocational Rehabilitation benefits, in which a specialist might play a role, are pursued quickly and the maximum dollar amount payable to the specialist is exhausted very quickly. Thus, there is no program need to keep the specialist files for the full 12 years from last date compensation (other than treatment or burial expenses) was paid, which is the normal retention lifespan for injury claim related data.

Specialist files include the WKC-10042 Private Vocational Rehabilitation Specialist Certification Application; WKC-14448 Certification Renewal Request; and a list of specialists by name, address, and telephone number stored in an Access database.

Information in these files may include:

- Private rehabilitation specialist name, address, email address, telephone number, and employer name
- A list of certifications held
- Name, position, and telephone number of three professional references
- Academic qualifications
- Vocational rehabilitation employment history

00492000. DATA OUTPUT FROM BI-WEEKLY MATCHING OF DIVISION OF VOCATIONAL EVT+1 DEST Y

During review of this functional schedule, Worker's Compensation management identified these records as not fitting under another series or General Schedule.

Vocational Rehabilitation is a benefit under Chapter 102 of the Wisconsin Statutes and Wis. Admin. Code DWD 80.49 for certain workers injured on the job. These workers have the right to pursue services with a private rehabilitation specialist certified by the department (Worker's Compensation Division) if the Division of Vocational Rehabilitation (DVR) cannot provide the necessary services. The method of identifying injured workers in this situation is to match DVR's Closed Order of Selection (OOS) list to the claimant data in ICMS.

Files used/obtained include DVR's Closed OOS spreadsheet, ICMS claimant records, and Crystal Report output.

Information in these files include:

- DVR client last name, first name, social security number, date of birth, determined client eligibility date, and Integrated Rehabilitation Information System (IRIS) ID
- Employee (i.e. DVR counselor) name and telephone number
- ICMS claimant last name, first name, social security number, date of birth

EVENT= date of the data match and data output
