**00248000. SANITARY PERMITS** **EVT+3** **DEST** **Y**

This record series contains summary information of plan review and permit issuance to construct private sewage systems pursuant to the requirements of Wis. Admin. Code § SPS 383.06(2) and Wis. Stat. §§ 145.135 and 145.19. The plan review is done by the state or by a municipality. The local governing body issues the permit to construct the private sewage system. Local ordinances are controlling concerning possible restrictions or total bans on use of these systems. A single permit card from the local government unit provides the data required by the Safety and Buildings Division for program monitoring and reporting. Projects are required to be completed within 2 years or a new permit has to be issued.

Data retained for this record series includes: Type of system and new or replacement system.

The official record may be maintained electronically for the full retention period. To comply with Wis. Stat. §§ 16.61(7) and 137.20 for authenticity, accuracy, and accessibility the original input documents will be imaged or reformatted and subject to review, to ensure the images of these applications are electronically stored and the quality of these images is acceptable. Upon verification of the quality and retention of the electronic images, the input record will be destroyed confidentially.
