------------------	--	--------------	-------------	----------

DPI Legal does not feel the use of ADM0009, EVT+3 with event as separation from position, for the management of the correspondence of the deputy state superintendent is appropriate because the retention period is not sufficient to make the transition between state superintendent administrations. We are changing the retention of this RDA from CR+8 to EVT+4 with event being separation from position to make it easier to transfer an entire administration's records to WHS all at once.

These files contain general correspondence of the Deputy State Superintendent of Public Instruction. This includes correspondence to the U.S. Department of Education, as well as state and federal correspondence, legislative and congressional, local education agencies (LEAs), Chief Council of State School Officers (CCSSO), Cooperative Educational Service Agency (CESA), education organizations and associations and interagency and constituent correspondence.

This new RDA is being developed to cover records that have not previously had their own RDA. ADM00002 Biennial or Annual Report Documentation cannot be used because these annual reports will be transferred to WHS.

Per Wis. Stat. §§ 43.58(6)(a), 43.58(6)(c), and 43.17(5), public libraries and public library system boards are required to file an annual report to the Dept. of Public Instruction (DPI), Division for Libraries and Technology, after the conclusion of the fiscal year of the municipality or county in which the public library is located.

The annual report includes information about the financial standing of the library and data concerning library materials, facilities, personnel, operations and such other information as the division requests. The report also contains a statement by the library board indicating whether the public library system in which the library participated during the year of the report did or did not provide effective leadership and adequately meet the needs of the library and an explanation of why the library board believes so.

00206000. **MCKINNEY - VENTO HOMELESS ASSISTANCE ACT GRANT FILES** **EVT+5** **SHSW** **N**

The Wisconsin Historical Society continues to request these records be transferred, therefore, we cannot use ADM00013.

The McKinney-Vento Homeless Education Assistance Act was initiated by Congress in 1987. Subtitle VII-B of The McKinney-Vento Homeless Assistance Act authorizes the federal Education for Homeless Children and Youth (EHCY) Program and is the primary piece of federal legislation related to the education of children and youth experiencing homelessness. Per 42 US Code §§11431-11435, State EHCY Program Coordinators ensure the implementation of the McKinney-Vento Homeless Assistance Act. Homeless children and unaccompanied homeless youth must have equal access to the same free, appropriate public education, including a public preschool education, and other services as provided to other children and youths to ensure that homeless children and youth have an opportunity to meet the same challenging State academic standards to which all students are held.

Records may include grant applications, notifications of award or denial of grant funds, grant monitoring reports and documentation, narrative and financial reports, supporting documentation, and EHCY compliance monitoring reports of Local Educational Agencies (LEAs), including those not receiving EHCY funds.

<u>00256000.</u>	<u>SCHOOL AND DISTRICT REPORT CARDS DOWNLOAD FILES</u>	<u>EVT+10</u>	<u>SHSW</u>	<u>N</u>
------------------	--	---------------	-------------	----------

This new RDA is necessary to facilitate the transfer of data records to WHS that are produced in conjunction with the publication of School and District Report Cards.

Wis. Stat. § 115.385 requires the production of accountability reports referred to by DPI as the School and District Report Cards. They report on the performance of schools and districts serving students supported through public funds, whether in traditional public schools, charter schools, or private schools that participate in the Private Choice Program. Metrics reported on include mathematics and English language arts proficiency rates, graduation, dropouts, attendance, and absenteeism. These various facets of school performance are combined to produce an overall report card score and rating.

The records are data accessed through download files that summarize the score information for all schools and districts that received a report card in a given year. Each school or district entry in the download files contains the scores for each of the major topics on the report card (referred to as Priority Areas), the overall score and rating, and demographic and school characteristic information.

This new RDA is necessary to properly dispose of administrative records created in conjunction with the publication of School and District Report Cards.

Wis. Stat. § 115.385 requires the production of accountability reports referred to by DPI as the School and District Report Cards. They report on the performance of schools and districts serving students supported through public funds, whether in traditional public schools, charter schools, or private schools that participate in the Private Choice Program. Metrics reported on include mathematics and English language arts proficiency rates, graduation, dropouts, attendance, and absenteeism. These various facets of school performance are combined to produce an overall report card score and rating.

Records include administrative files that are created and revised each year to produce the School and District Report Cards. These files include specialized programs written within the R and Microsoft Access environments, and files created in an annual correction process to data used in report cards. The report card production process involves iterative refinements to program scripts and incorporation of data corrections submitted by schools and districts. In order to compare the results of various versions in this iterative process, multiple copies of the R and Access program scripts with their outputs are saved. Files from a data correction process offered to schools and districts are also saved and used in the report card production process. These correction files include data files sent by DPI to schools/districts for review, correspondence with school/district administrators in the process of conducting corrections, corrected data files returned by schools/district, and evidence provided by schools/districts to support corrections.

RDA # RDA Title Retention Disposition PII

This RDA covers a new program that fully replaced the Student Achievement Guarantee in Education (SAGE) program that ended at the end of the 2017- 18 school year.

The Achievement Gap Reduction (AGR) program requires participating schools to create performance objectives designed to reduce the achievement gap between low-income students in that school and students in the same grade and subject statewide. Per Wis. Stat. § 20.255(2), the AGR program allows participating schools to receive state aid on a five year contractual basis to implement one or more of these strategies in every kindergarten through grade three classroom:

*One-to-one tutoring provided by a licensed teacher

Instructional coaching for teachers provided by a licensed teacher

*Maintaining 18:1 or 30:2 classroom ratios and providing professional development on small group instruction

The AGR program requires school board review of implementation and progress towards achieving performance objectives in each participating school at the end of every semester.

Records in this series may include applications, contracts, AGR entitlement and strategies report, performance objectives and school board reports. Event is when the 5 year contract for funding has ended.

Under 118.153, Wis. Stats., Children at Risk: Eligible school districts were either required or allowed to apply to the State Superintendent for additional categorical aid. Upon the receipt of the school district's annual report the State Superintendent pays the school district an appropriation for each pupil enrolled in a program for children at risk who met program criteria. Additional state aid was paid in the amount of 10% of the school district's average per pupil aid. The funds were prorated when insufficient. Biennially the Legislative Audit Bureau was required to audit school district's eligibility, performance, criteria and state payments.

These files contain the records pertaining to the school district children at risk programs. Included are the school districts eligibility claims and any related correspondence. Records could contain personally identifying student information and should be protected under the Federal Family and Education Rights and Privacy Act (FERPA).

This RDA consolidates 075, 120, 127a and 127b into one RDA.

School districts are required under Wis. Stat. Ch. 121, to file financial, annual, and budget reports to the WI Dept. of Public Instruction. These reports contain information about: enrollment, membership, attendance, buildings, type of school organization, analysis of teaching staff, instructors in particular fields, non-instructional staff, salaries of teachers and non-teaching staff, school tax levies, expenditures for new buildings and additions, outstanding long-term indebtedness, computation of state aids for transportation, board and lodging, driver education, special education services, financial and audit statements and related information, and summer school programs.

The reporting done by school districts is used in the calculation and payment of equalization and categorical aids including the following reports: equalization aids, special education aids, transportation aids, common school fund (library aids), drivers' education and state tuition claims. School district annual financial audit reports, including single audit if required, include the following reports: CESA annual financial audit reports, CCDEB annual financial audit reports, membership audit reports, and library audit reports.

<u>00200E00.</u>	<u>OPEN ENROLLMENT APPLICATIONS AND TRANSFER BASE</u>	<u>CR+25</u>	<u>DEST</u>	<u>Y</u>
------------------	---	--------------	-------------	----------

All of the records in this series constitute "pupil records" under Wis. Stats. 118.125, and must, therefore, be kept confidential by the Department as required by Wis. Stats. 118.125(2)(g).

Section 118.51(3) Wis. Stats., requires the parent of a pupil who wishes to attend a nonresident school district under open enrollment to submit an application form to the nonresident school district on a form provided by the Department. Since the 2008-09 school year, paper applications have not been sent to the Department. Instead, parents apply on the Department's website or submit a paper application to the non-resident school district, that then enters the application data into the Department's online application database. The Department does not receive paper applications. Information in this database along with the tracking of applications and transfers allows the Department to generate the annual report to the Governor and Legislature required under Wis. Stats. 118.51(15)(C) and to transfer state aid from the resident to the nonresident school district for each open enrollment pupil as required under Wis. Stats. 118.51(15)(c) and to transfer state aid from the resident of the nonresident school district for each open enrollment pupil as required under Wis. Stats. 118.51(16). It also enables the Department to respond to questions from the legislature, media, and public. Only statistical information is provided. No personally identifiable information is released.

Retention justification: An open enrolled pupil can potentially be enrolled for 17 years (early childhood to 21). Records should be retained for an additional 8 years, for a retention total of 25 years, for the historical data needed to generate reports to the governor and legislature.

All of the records in this series constitute "Pupil Records" under Wis. Stats. 118.125, and must, therefore, be kept confidential by the Department as required by Wis. Stats. 118.125(2)(g).

Section 118.51(3) Wis. Stats., requires the parent of a pupil who wishes to attend a nonresident school district under open enrollment to submit an application form to the nonresident school district on a form provided by the Department. The statute also requires the nonresident school district to send a copy of the form to pupil's resident school district and to the Department.

Information from this initial application form is entered into an open enrollment database which is updated as information is received from school districts about approval or denial of applications, as well as actual transfers, and withdrawal from open enrollment. After the data is entered into the database, the print applications become duplicate records and are only retained for 7 years. The information in the database enables the department to generate the annual report to the Governor and Legislature required under Wis. Stats. 118.51(15)(c) and to transfer state aid from the resident to the nonresident school district for each open enrollment pupil as required under Wis. Stats. 118.51(16).

Per Wis. Stat. § 118.19 and Wis. Ad min. Code Ch. PI 34, the Department of Public Instruction's (DPI) Licensing, Educator Advancement and Development Team is responsible for establishing rules and regulations governing teacher education and certification for approved programs in Wisconsin. Those programs may be offered at public, private, and non-profit entities. Reviews of programs for certification of school personnel at each preparation program are conducted annually and comprehensive reviews at least every fifth year. The DPI is also required to complete reviews at other times new programs are submitted, when changes are made to existing approved courses, or when there are concerns with program compliance or performance.

An EVT + 25 year retention is required to ensure DPI consultants have access to documentation needed to complete reviews for licensure conducted years after graduation by the completer. This RDA consolidates 00037000 and 00018A00 into one RDA. CR+75 year retention necessary to fulfill obligation to retain records for each individual applying for a license for the life of the applicant.

These records pertain to the State Superintendent of Public Instruction's authority under Wis. Stat. § 115.31, Wis. Stat. § 118.19 and Wis. Admin. Code Ch. PI 34 to issue Wisconsin educator licenses. Actions taken by DPI include authorization of new and/or renewed licensure requests as well as investigations to determine license revocations or denials for immoral conduct, conviction for certain criminal offenses or incompetency.

New applications and/or renewed licensure requests include documents, attestations, correspondence and other evidence that license requirements are met. Examples include academic transcripts, employment history, performance evaluations, grade reports, test scores and institutional endorsements. Additionally, the application materials may also include documentation and information related to an individual's background check, including but not limited to police reports, psychological reports, disciplinary findings, other investigative reports and findings, court records, medical records, and criminal history information.

During the investigative and determinative processes in response to alleged immoral conduct, conviction for a certain criminal offense or incompetency by a license holder and/or an applicant for licensure, materials collected that assist the State Superintendent (or designee) in making a decision regarding revocation and/or denial of a credential may include, but are not limited to investigative reports, court records, photographs, correspondence, hearing transcripts, other documentary evidence, witness and victim statements, federally protected information (e.g. medical and educational records), and electronic media (e.g. flash drives, CDs, DVDs) containing various documents, photographs, videos, etc. Also included as appropriate are the State Superintendent's (or designee's) decision, findings of fact, case settlement/stipulation documents, and revocation order.

Records contain PII and are also protected under HIPAA and FERPA and other state and federal laws requiring them to be confidential.
