<u>00091000.</u>	<u>CUSTOM FILE MAINTENANCE</u>		<u>EVT+40</u>	<u>DEST</u>	<u>Y</u>	
	Custom file maintenance (CFM) requests are used to apply changes to data elements that are unable to be automatically updated by agency business applications. A few examples include, but are not limited to, updating code tables with revised payroll dates, new employer rates for contributions, and correcting incorrect employee demographic data between systems such as a member identification number, birthdate, marital status, or social security number. Once the CFM request is processed, the request and any related documentation must be retained to keep a history of member information changes which could impact payments. Previously, all requests were submitted in paper format using ET-8454- Custom File Maintenance Request Form, but since 2017, all requests have been submitted electronically.					
	Retention: Paper documentation was kept in-house for 1 year after completed and then sent to the State Records Center for the remaining 39 years. Now that requests are submitted electronically to an T service request tracking software, the documentation is retained in a database where it is stored for 40 years and continued to be backed up for disaster recovery purposes. We reviewed IT0000IO and the retention is not sufficient for ETF. We are not only paying benefits to members, but we are also paying benefits to beneficiaries of a member which is why it is necessary to retain the information longer than IT0000IO. IT0000IO only requires records to be retained for 4 years after a system upgrade.					
	This record series contains content that is confidential under Wis. Stat. § 40.07.

<u>00153000.</u>	<u>DOMESTIC PARTNER SYSTEM</u>	<u>P</u>	<u>PERM</u>	<u>Y</u>
-------------------------	---------------------------------------	-----------------	--------------------	-----------------

The Domestic Partners System is a DB2 web application which allows data entry and inquiry information related to Domestic Partners who have filed affidavits with Employee Trust Funds (ETF) and are eligible under Wis. Stat. ch. 40 for benefits, health insurance, and life insurance coverage.

ETF no longer accepts Affidavits of Domestic Partnership (ET-2371) on or after April 1, 2018. Employee Trust Funds continues to receive Affidavits of Termination of Domestic Partnership (ET-2372). Note: a partnership may also be terminated without an ET-2372. For example, "Termination based on member and partner ceasing Wisconsin Retirement System (WRS)/health insurance membership" or "Termination based on 'other' ETF determination". Cancellations returned in paper format are imaged and the data is stored in the Domestic Partners System. The official record will be maintained electronically for the full retention period. To comply with Wis. Stat. §§ 16.61(7) and 137.20 for authenticity, accuracy, and accessibility the original input documents will be imaged or reformatted and subject to review, to ensure the images of these applications are electronically stored and the quality of these images is acceptable. Upon verification of the quality and retention of the electronic images, the input record will be destroyed confidentially.

The records stored in the Domestic Partner system must be stored permanently as they are used to reconcile health insurance coverage and determine benefits payable to beneficiaries. These benefits can have a duration of more than one lifespan.

Inputs include data keyed into BCS from Ombudsperson Inquiry Intake Sheets (ET-2420) and related documents gathered while researching a member inquiry. Documents could include health plan information, documents, insurance contracts or administrative code citations.

These inquiries are informal and do not proceed to a complaint or departmental determination. The paper documents once entered are considered a non-record and are retained for six months as reference or as follow up if a subsequent inquiry on the same subject from the same member comes up again and destroyed confidential. Just the data in the system is kept as the record.

Inputs also include Formal Ombudsperson Health Insurance Complaints and Departmental Determinations filed by Wisconsin

Retirement System members. Documents could include health plan or third-party administrator grievance decision letters, member correspondence and consultant reviews. Both the Ombudsperson Closure letters and the Departmental Determinations provide subsequent rights to a Board Appeal reviewed by the Group Insurance Board.

These paper files are kept by the ombudsperson for one year after claimant appeal rights expire and then are prepared for imaging. All medical and personal health information is removed and destroyed confidential and the remaining items are imaged into the member's account. Items imaged may include, but are not limited to: Complaint Summary (ET-2405, ET-2406), member correspondence to the Department or Health Plan, Health Plan Grievance Decision letter, Independent Review (ET-2424), ETF Ombudsperson Complaint Closure letter, Departmental Determination letter and worksheets. The imaged documents are retained according to RDA #00087.

Legislative History Files are created for each Wisconsin Assembly or Senate bill introduced that has an impact on the Wisconsin Retirement System or any of the benefit programs administrated by the agency (i.e. Health Insurance, Life Insurance, Income Continuation Insurance, Deferred Compensation Program, and Employee Reimbursement Program). These files are a history of legislation affecting ETF programs and contain information that cannot be found anywhere else.

These files are filed by the bill number (ex: AB__ or SB__ or Wis. Act __ and includes joint resolutions, etc. which are numbered AJR__ or SJR__). The files contain memos; letters; fiscal estimates; hand written notes; spreadsheets; Joint Survey Committee notes and analysis; the bill as introduced or amended; memos by other agencies, such as the Department of Justice; etc.

These files will be kept permanently in the agency Knowledge Management System due to the ongoing research needs and business needs of the agency when it comes to legislation affecting our programs. These records were identified during an agency review as records that needed to be captured electronically and saved due to their historical reference for agency policy and legal staff.
