CR+3

DEST

Y

This record series consist of correspondence and documents related to tax administration that are not associated to a specific tax account. For example, a tax practitioner may inquire about the sales and use tax treatment of a product or a governmental unit may inquire about procedures for requesting a private letter ruling. The documents aren't related specifically to a taxpayer and therefore are not maintained in a customer's tax account (which would be maintained under RDA 470).

00001000. ESCHEATED ESTATE RECORDS EVT+5 DEST Y

Escheated Estate record refers to court orders, legal documents and related property records that are escheated to the State of Wisconsin as estate property not claimed by the distributee per Wis. Stat. § 863.39. This record series does not include unclaimed property records.

Wisconsin Stat. § 863.39 states that a person claiming any amount of an escheated estate must file a petition within ten years of when the estate is turned over to the State of Wisconsin. After ten years, the statutes further provide that the funds must escheat to the Common School fund, per Wis. Stat. § 852.01 (3). As such, we are required to hold any escheated estate for at least ten years.

* DOR must keep escheated estate records for five years beyond the date that the full value of the property is claimed OR the property is turned over to the Common School fund. The property record will include all of the various types of properties and claimed listed above that are related to a specific estate.

These records consist of school district valuations which are required by the Department of Revenue. The equalized valuation of a school district is the equalized value of all taxable property in the school district. There are two types of equalized values and they each serve a different purpose. One for tax apportionment purposes and one for school aid purposes. These records also consist of step and repeat value files displaying equalized values and totals.

These records also consist of either step and repeat output displaying equalized values and percent to total. They include a Tax

Incremental District (TID) in type and TID out type. Equalized values are certified and sent to officials of these special purpose districts to enable them to apportion the general property tax (if any) among the tax districts having property within their boundaries. The equalized value is also used to limit the amount of tax which can be levied on each dollar or equalized value. It is also used when borrowing money.

A retailer completes an application form which includes the type of business, owner's name, electronic fund transfer account number and other information needed to determine qualifications. The forms are forwarded to the Lottery headquarters along with the application fee.

The data is entered from the form into the Application Tracking and Licensing file on the gaming vendor's system and is used for the selection and monitoring of those retailers who sell Lottery tickets according to Wis. Stat. § 565.10. Business and owner information are sent to the Department of Revenue to determine if state taxes are due, to the Department of Workforce Development to determine if liabilities exist and a background check is done by the Department of Justice. If the application passes all checks, a license is printed and a record is created on the retailer file in the gaming vendor's system.

A contract is mailed to the retailer for signature. When a signed contract is received, the retailer's record is enabled and the gaming system vendor is notified to place a terminal at the retailer location.

Periodic changes and updates are made to the retailer's contract and application file. An existing Lottery retailer's contract can be renewed, terminated, or discontinued.

The Lottery Gaming System contractor is responsible for generating a daily and weekly report used by Lottery staff. The internal control system (ICS) vendor is responsible for generating these same reports. All transactions produced on the Lottery Gaming System are received and processed by both systems.

Each system generates reports for each on-line drawing and provide accounting and winner information. Both systems must balance and produce the same results in order for the draw to take place. The reports and files are for all terminal generated games which include the following: Drawing results for each game with winning numbers drawn; Draw Sales Summary Report; Winning Numbers Report; Winner Summary; Big Winners Report; and Game Summary Report. These reports and the Auditor's checklist are retained by Lottery draw staff in a daily draw file.

00428000. **VENDOR BACKGROUND INVESTIGATIONS - CONFIDENTIAL** **EVT+7** **DEST** **Y**

Before a contract is entered into, Lottery Security staff, with the assistance of the Department of Justice (DOJ), shall conduct background investigations, per Wis. Stat. § 565.25 (4). Proposed vendors must provide a photograph, finger prints and complete a background questionnaire. DOJ performs the background check and notifies Lottery Security.

*These background checks are retained by the Security Operations Section for seven years, following the termination of the vendor, and will be destroyed, on-site, as confidential records provided the Legislative Audit Bureau's audit, authorized by Wis. Stat. § 565.37(1) and the security audit authorized by Wis. Stats. § 565.37(6) are completed.

Records contain personally identifiable information including address, social security number, driver's license and bank account numbers. Record series is confidential per Wis. Stat. § 71. 78.

00431000. **RNG CABINET SEAL LOGS** **CR+2** **DEST** **N**

The Random Number Generator (RNG) Cabinet Seal Log is maintained for each cabinet that contains a RNG computer. The cabinets are continuously locked and sealed when not in use. When the RNG is in use, the cabinet is unlocked and the seal is broken by authorized Lottery personnel or the Capitol Police. When the use of the RNG is finished, the cabinet is locked and a new seal is put in place. The RNG Cabinet Seal Log is the vehicle to document the RNG use and track the changing of seals to ensure the security of the RNG when not in use. Log sheets are kept with the RNG cabinet until full and then they are collected and placed in a file in the Lottery Security Office.

00432000. **INSTANT TICKET RECONSTRUCTION FILES / VENDOR MONTHLY REPORT** **EVT+3** **DEST** **N**

Damaged instant tickets that are submitted to the Lottery for payment determination need to be placed in a ticket reconstruction process before payment authorization can be made. Formal reconstruction Information requests are sent to the Instant ticket printing vendor by designated Lottery personnel. Instant ticket reconstruction information received from the ticket printing vendor is used to verify the status of the damaged instant ticket and payment authorization determination.

Instant ticket printing vendors provide monthly reports to Lottery Security on the number of reconstruction requests submitted to, and responded by, the vendor. These reports are used to monitor the ticket reconstruction process and are maintained in electronic files.

The instant ticket reconstruction files and vendor monthly report files will be retained for three (3) calendar years and then destroyed, provided full resolution of the Legislative Audit Bureau Financial Audit per Wis. Stat. § 565.37.

00433000. **ANNUAL INSTANT TICKET INVENTORY** **CR+3** **DEST** **N**

On an annual basis, a complete physical inventory is taken of all Wisconsin Lottery instant and pull-tab games tickets contained in vendor's warehouse. This inventory is performed under Lottery Security direction in conjunction with warehouse personnel and Lottery Accounting staff. The inventory count sheets, the inventory count control spreadsheet and the annual inventory report and attachments are maintained in both a paper and an electronic file located in the Lottery Security office and on the Lottery Security shared drive.

The annual instant ticket inventory files will be retained for three (3) years after the date of creation.

00434000. **SECURITY AUDITS AND COMPLIANCE REVIEWS** **EVT+4** **DEST** **N**

On a biennial basis, the Wisconsin Lottery contracts with independent contractor(s) to perform general and IT security audits of the Lottery's operations and the vendor provided Computer Gaming System (CGS) that supports the Lottery's operations.

On a biennial basis, the Multi-State Lottery Association (MUSL), which the Wisconsin Lottery is a participating member through the Powerball game, conducts a Compliance Review of the Wisconsin Lottery's adherence to the mandatory MUSL Member Rule 2 and their confidential Standards for the operation of the Powerball game.

Exhibits, attachments, notes, the formal reports and the formal Lottery response to the reports are maintained in a paper file located in the Lottery Security Office.

Box 16: Lottery security audits identify strengths and weaknesses in Lottery security, so that Lottery can maintain good security and take corrective steps on areas of weakness. There is an extremely strong case that, under the balancing test used in reviewing open records requests on a case-by-case basis under Wis. Stat. § 19.35, the public benefits more from nondisclosure than disclosure of these records. Nondisclosure keeps the Lottery secure from hackers, thieves and fraudsters; ensures a fair game for all players; and protects the investment of the citizens of Wisconsin in the Lottery. Additionally, the Lottery limits access to these records to a handful of employees.

00469000. **INSTANT SCRATCH GAME MASTER FILE** **EVT+10** **DEST** **Y**

Each Lottery instant scratch game has its own master file. Each lottery bonus drawing that involves multiple instant scratch games may have its own master file.

Contents of each master file includes that game's...

- Features and Procedures, including the prize structure, which are the official rules for that game as outlined in Wis. Stat. § 565.27(1)(1).
- Lottery Administrator and Legal Counsel Features & Procedures approval documents.
- Legal opinions, trademark clearance letters, and game audits. Client-legal counsel communications are confidential information.
- Working papers (a contractor initiated document signed by both the Lottery and the contractor that includes the specifications for that game). Working papers contain trade secrets and therefore should be treated as confidential per Wis. Stat. § 134.90 and, on occasion, the FEIN number of contractors on materials related to procurement.
- Emails, letters, or other correspondence related to the game.

* The retention time period for a particular game may exceed 10 years if payments are still being made for one or more annuity prizes in that game. The event for any such game is the end date of that game or until the last payment of the annuity prize is made, whichever is later.

00481000. **LOTTERY RETAILER ACCOUNTING REPORTS, FORMS AND LOGS** **CR+2** **DEST** **N**

This RDA includes forms, reports, files, and logs related to Lottery retailer accounting and accounting for the Gaming System and Internal Control System.

There are three primary files using Microsoft applications (Excel or Access) that are maintained by the Retailer Accounting. These files are updated weekly to create a fiscal year period. They are used as management/audit tools of retailer accounts activity and of State accounting (STAR) reconciliation.

- Electronic Fund Transfer (EFT) Accounts Receivable workbook: updated daily for each billing week & is used by DOR-Lottery Accounting staff to record the deposit of amounts received by EFT from retailer accounts into Star. The file is retained on the Lottery's local area network (LAN).
- Non Fund Transfer (NFS) Subsidiary Ledger: updated daily & used as management/audit tool in the collection of past due amounts owed the Lottery by retailer accounts. The file is retained on the Lottery's LAN.
- Retailer Manual Adjustment Log: contain listing of all manual adjustments made to accounts receivable subsidiary ledger during fiscal year. DOR-Lottery accounting staff also receives weekly to aid in correct recording of entries into STAR

On-line Unreadable Ticket Envelopes are mailed in from retailers on a daily basis. They contain unreadable terminal generated tickets for which retailer are requesting credit adjustment. The retailers are charged for the tickets when they are generated through their terminals but they cannot sell the tickets if they are unreadable; therefore we must reimburse them by way of a credit to their accounts.

Paper reports and logs are generated by staff to provide information on credits given to retailers based on information provided in the unreadable ticket envelopes. Each envelope is audited and a credit memo is issued based on the audit findings.

Daily/ weekly system reports are generated from the Lottery Gaming System to reconcile all activity produced on the Lottery Gaming System to STAR and to the accounts receivable subsidiary ledger. A second system, the Internal Control System (ICS) is located on the Lottery premises. All transactions produced on the Lottery Gaming System are received and processed by the ICS. Both the ICS and the Lottery Gaming System generate daily and weekly reports used by the Lottery to compare transactions processed.

These reports must balance because they are used as an internal control mechanism to guarantee the honesty and integrity of the daily and bi-weekly drawings for computer-generated games and to meet the requirements set by the Multi State Lottery Association for games in which the Lottery participates.

00482000. **FORMS, REPORTS, FILES, LOGS AND NOTES** **CR+2** **DEST** **N**

This RDA is being created for simplification - the RDAs 346,356,361, and 354 will be superseded into it.

This RDA includes forms and reports related to Lottery Security.

Checksums - The Lottery Vendor runs a Checksum report against the production gaming system to ensure no unauthorized software changes have been made. When the checksums change due to an authorized software update to the gaming system, a "Checksum Diff" report is provided to Lottery Security via email. This report is saved electronically by Lottery Security.

Ticket return forms - Ticket return forms are used when retailers return unsold Lottery tickets for credit against their account. The return forms are received in either paper or electronic format. The ticket return forms are retained as part of the audit trail for Lottery operations.

Terminal shutdown reports - In an attempt to identify clerks or owners that may be looking for winners without revealing the entire ticket, the Lottery retailer terminals are configured to shut down from instant ticket activity after 25 non-winning tickets in a row have attempted to be validated. The retailers have been instructed to call the Retailer Hotline, staffed by the Lottery vendor IGT Corp., if the terminal has shut down. The operators send the information to the Lottery for review.

Security reports - The Lottery Security Section receives a summary of all instant tickets currently in inventory from the warehouse contractor IGT Corp. This list is compared to the active inventory list maintained in the Lottery Gaming System for the same time period. Lottery Security investigates any discrepancies.
